IPS-M920^{CA}

Automated pH and Dual ORP Controller with PPM Display and Online Monitoring

Application: Complies with California Health Department Requirements to meet Title XXII

For installations where health departments require daily logs of FAC (PPM) & pH (requires internet connection), the M920^{CA} will provide reports from the controller system.

Maintain consistent pH and sanitizer levels through out the day, assuring the chemicals are balanced and the water is clean and clear. Automatically monitor, adjust and dispense the correct amount of chemicals based on user demand.

Check in on activity using your smart phone or tablet. Web-based programming, monitoring, multiple email and testing options for alert notification are built into the M920^{CA}, with optional wireless internet access.

Perfect for pools, spas and water features of all sizes, anywhere—hotels, condominiums, aquatic centers, schools, public facilities, homes and more. Quick and simple to operate, easy installation right out of the box and system set up takes just minutes. It's rare, but if technical support is needed, we are just a phone call away.
